

PerfectPar™ 650W LED Grow Light

Efficacy: 2.7 $\mu\text{mol/J}$
PPFD: 1710 $\mu\text{mol/s/m}^2$

- CREE, OSRAM, and SAMSUNG LEDs
- Built in Colorado

Powerful , Efficient, and Built to Last

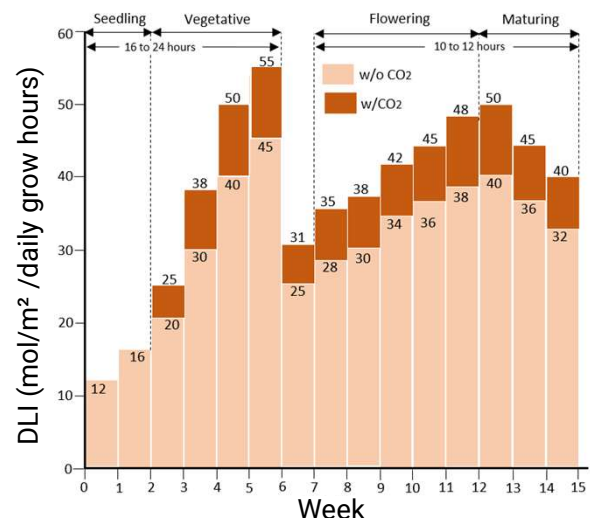

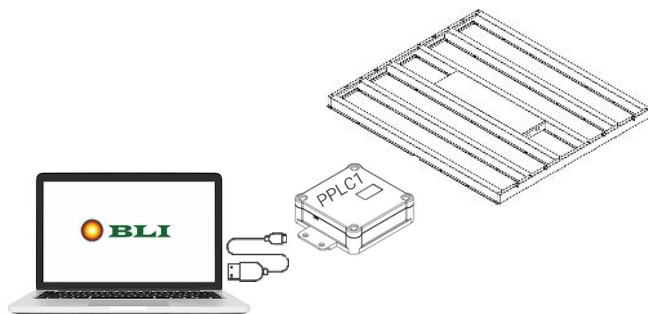

Boulderlamp PerfectPar™ 650W full-spectrum LED grow light is designed for single or multi-tier commercial horticulture cultivation in a greenhouse, vertical farm, or other indoor facility.

PerfectPar™ 650W is a high PPFD 6-bar LED grow light for deeper canopy light penetration promoting robust plant growth for higher yield and quality.

NEW Features

Control light intensity day by day, week by week

Our lighting controller enables you to turn on and off lights according to your daily grow schedule and you can also set daily or weekly light levels for maximizing energy savings and yield. Flowering or vegetative growth periods can be divided into multiple segments where light level for each segment can be programmed as you desire.

4' x 5' grow tent with reflective surfaces
Hang height: 1 foot (30.5 cm)

Summary Specifications

Nominal input current: 277/240/208/120VAC	2.32/2.68/3.12/5.5A
Nominal input power: 277/240/208/120VAC	642/644/648/660W
BTU: 277/240/208/120VAC	2189/2196/2210/2251
Dimming range	100% -10%
Daisy chain units per 20A circuit: 277/240/208/120VAC	6/5/4/2
Coverage area	Up to 25 square feet
Dimension (L x W x H)	47.2" x 45.4" x 2.2"
Efficacy	2.7 $\mu\text{mol/J}$
Photosynthetic Photon Flux Density (PPFD) @277V	1710
Weight	23lb
Warranty	5 years
